

I listen to KLOVE every day driving to and from work. Their slogan 'Positive and Encouraging' is a true expression of what this station broadcasts. The Christian music is very popular with our youth, and having a radio station broadcast makes it very accessible to youth and families in the car, and on outings. I have also noticed that some business (for example, my barber shop) plays KLOVE, and it is a welcome relief from the banter often broadcast on other stations. The station shares the love of God, and the basic gospel message without favoring a particular denomination. The real life stories shared by listeners are inspiring. It would be a real loss to our community if KLOVE were to no longer broadcast locally. Please renew KLOVE's license to continue broadcasting in the North Carolina Triangle area, and in the San Jose California area. I enjoy listening to them during business trips to the west coast too !
